D.O.S.	27/03/2025
Sign and Grade	

TITLE : PrepWise

INTRODUCTION

The **Prepwise** project is a **Fullstack AI Roadmap Generator web application** built using **React (TypeScript) for the frontend**, **Flask for the backend**, and **MongoDB as the database**. This document outlines the prerequisites required before setting up and running the project successfully.

SYSTEM REQUIREMENTS

1. Hardware Requirements

- **Processor:** Intel Core i5 or higher
- **RAM:** Minimum 8GB (Recommended: 16GB for smooth performance)
- **Storage:** At least 10GB free disk space
- **Operating System:** Windows 10/11, macOS, or Linux

2. Software Requirements

- **Node.js** (v18.16.1 or later) – Required for running the React frontend
- **npm** (v9.5.1 or later) – For managing frontend dependencies
- **Python** (3.11.9 or later) – Required for Flask backend
- **MongoDB Atlas** – Cloud-based NoSQL database
- **VS Code** – Recommended IDE for both frontend and backend development
- **Postman** – For API testing

TECHNOLOGY STACK

1. Frontend

- **React.js** (JavaScript library for building UI)
- **TypeScript** (Strongly typed JavaScript)
- **Tailwind CSS** (Utility-first CSS framework for styling)

2. Backend

- **Flask** (Python-based web framework)
- **Flask-CORS** (To handle cross-origin requests)
- **PyMongo** (For MongoDB connection)

3. Database

- **MongoDB Atlas OR MongoDB Compass** (Cloud-based NoSQL database for storing product details)

SETUP INSTRUCTIONS

1. Install Node.js and NPM

Download and install Node.js from [Node.js Official Website](#).

Verify installation:

```
node -v  
npm -v
```

2. Install Python and Flask

Download and install Python from the [Python Official Website](#).

Verify installation:

```
python --version  
pip --version
```

Install Flask and required dependencies:

```
pip install flask flask-cors pymongo
```

3. Setup MongoDB

Use **MongoDB Atlas** for cloud storage or install **MongoDB locally** from [MongoDB Official Website](#).

If using a local setup, start MongoDB using:

```
mongod --dbpath /path/to/data
```

PROJECT STRUCTURE

Backend	Frontend
	

CONCLUSION

This document provides the necessary prerequisites for setting up the **PrepWise** project, including hardware/software requirements. Ensuring all dependencies and configurations are correctly set up will help in running the project efficiently.
